3.5. All Armed Forces ABs have been advised to submit their qualifications for NSQF alignment and approval to the NCVET in a phased manner to avoid clogging of the qualifications at NCVET.

Submitted for information of the Committee.

4. AGENDA ITEM NO 04: MAPPING OF QUALIFICATIONS WITH NATIONAL CLASSIFICATION OF OCCUPATION (NCO) CODES

4.1. National Classification of Occupations (NCO) is a classification of occupations which describes and assigns codes to the various occupations in the country and aligns it with International Standard Classification of Occupations (ISCO-08) which is fully supported by the international community as an accepted standard for international labour statistics. Globalization of the labour market has increased the demand for internationally comparable occupational data for both statistical and administrative purposes.

4.2. In India, the Directorate General of Employment, Ministry of Labour & Employment, and Government of India maintains and updates the National Classification of Occupation in India. The first classification was NCO-1946 followed by 1958, 1968 & 2004 and now the current series is NCO-2015 which is aligned with ISCO 2008.

4.3. As a standard practice of NSQF alignment, all Qualifications are required to be mapped to a NCO code. This is also reflected in the Qualification File Template. This helps in alignment of training programs to the existing occupations in the industry which further enables awarding bodies, learners, academia, industry and policy makers with enhanced knowledge to take informed decisions.

4.4. There is lack of clarity amongst the VET stakeholders regarding the concept and application of NCO codes as during the scrutiny of the VET qualifications being submitted for NSQF alignment and approval by the various Awarding Bodies following have come to the light:

- a) Some of the existing qualifications have not been assigned/ mapped to the NCO Codes.
- b) Certain NSQF aligned & approved qualifications are aligned to inappropriate NCO Codes.
- c) In some of the qualifications there is a mismatch of nomenclature with the occupation as per NCO.
- d) The qualifications which are futuristic and Industry 4.0 compliant do not have the NCO code.
- e) With integration of the Defense Forces in the VET ecosystem, there are number of qualifications relevant to both industries and Armed Forces for which new NCO codes may have to be assigned in consonance with the ISCED/ISCO. Further as and when Central Armed Police Forces (CAPF) decides to be part of the VET, the numbers will further get compounded.

4.5. Therefore, it is proposed that a Committee to address the issues as highlighted above with respect to NCO codes and its application be formed under the chairpersonship of Executive Member, NCVET with proposed members from the Directorate General of Employment, Ministry of Labour & Employment, UGC, AICTE DGT, MSDE, NCVET and select Awarding Bodies. This Committee on NCO Codes shall submit its recommendations to NSQC for better understanding and smooth alignment of NCO codes with VET qualifications.

The agenda is placed for kind consideration and approval of the committee.

5. AGENDA ITEM NO 05: NEW CERTIFICATE TEMPLATES FOR OPTIONAL TRADES IN APPRENTESHIP AND UPSKILLING

5.1. In the 24th meeting of NSQC held on 15.11.22, nine certificate templates catering to various skilling requirements were placed for approval of NSQC. All the templates were granted approval. However, a request was made that in addition to these 9 templates, two more templates be made catering to the requirement of Upskilling Qualifications and for apprenticeship programs (optional trade) being implemented by Awarding Bodies other than DGT for their NSQF aligned and approved qualifications.

5.2. Accordingly, the following two templates have been prepared:

- a) Upskilling; and
- b) Apprenticeship Qualifications (OT) for AB other than DGT.

The agenda is placed for kind consideration and approval of the committee.

6. AGENDA ITEM NO 06: TWO (2) QUALIFICATIONS FOR SECTOR SKILL COUNCIL FOR GREEN JOBS ON URGENT REQUEST FROM MSDE

6.1. NCVET has received a request from MSDE to Fast Track NSQF alignment and approval process of two new qualifications of Awarding Body SCGJ namely, Green Hydrogen Plant Entrepreneur and Green Hydrogen Plant Technician as part of Green Hydrogen Mission **launched by the GoI on 04 January 2022**. The government has mandated creation of a pool of skilled human resources to assist the National Green Hydrogen Mission. The mission is expected to **create around 06 lakhs jobs** in the hydrogen sector with a combination of solar electrolyser works. Services of these trained technicians will be utilized to run and operate in industries.

6.2. Keeping in view the urgency, NCVET has expeditiously scrutinized these two qualifications and conducted its review with stakeholders. The detail of Qualification is as under:

S. No	Name of qualification	Notional Hours	NSQF Level
2	Green Hydrogen Plant Entrepreneur	Total 480 Hours:	5
3	Green Hydrogen Plant Technician	Total 420 Hours:	4

Submitted for the kind consideration and approval of the Committee.

7. AGENDA ITEM NO 07: OCCUPATIONAL MAP- CAREER PROGRESSION TEMPLATE

7.1. The Occupational Map (OM) of any sector is created by identifying the sub-sectors and related occupations. It is the product of the occupational analysis and is a visual representation of the occupation/job hierarchy of the sector. Keeping in view the

developments in the Skill ecosystem, the technological developments and Industry 4.0 requirements, a need was felt to realign the Occupational Maps of sectors/sub sectors.

7.2. The process of NSQF alignment of qualifications involves submission of a detailed occupational map to understand the industrial relevance of a job-role and giving a view of progression, both horizontal and vertical for a trainee. The existing occupational Map template has been revised to align with the NCrf and also a provision has been given for alignment with the National Classification of Occupations -2015.

7.3. The Excel sheet of the occupational map templates is attached in the mail and has been kept open ended as a work in progress. The Occupational Map shall be submitted by all Awarding Bodies in the revised/prescribed Occupational Map & Progression Map templates for NSQF alignment & approval. The members and recognized ABs may submit their inputs for improvement/refinement, if any, by 17th February 2023 to Director-Policy, NCVET.

Submitted for information and inputs of the Committee.

8. AGENDA ITEM NO 08: GRANT OF REGULAR VALIDITY TO THREE QUALIFICATIONS OF LSSSDC

8.1. Three revised qualifications of Lifesciences Sector Skill Development Council were approved in 17th meeting of NSQC for 6 months as the number of trainings was less than 100 in each qualification. The awarding body was advised to conduct the requisite number of trainings in each of these 03 qualifications as per the prescribed time and communicate to the NSQC for further grant of extension of regular validity for 3 years. The awarding body had committed to train 100 candidates in Manager-EHS, 200 candidates in Associate-Clinical Research Management and 200 candidates in Executive – Telesales qualification in FY 2022-23.

8.2. As these qualifications are although of high relevance but has a limited employment opportunity. The enrolments made in these qualifications and the reasons behind low demand are listed as below which have been corroborated from the subject matter experts (SMEs) in stakeholders' consultation. Details are given below:

Sl. No.	Name of Qualification	NSQF Level	Minimum Training(in numbers) commitment	Candidates enrolled till September 2022	Reason of Low Demand	Estimated New Hire Opportunities
---------	-----------------------	------------	---	---	----------------------	----------------------------------

Agenda for the 26th Meeting of NSQC dated 31st January 2023

			submitted till Sep 2022			in India per Year
a.	Manager-EHS (Manufacturing or Research facility for Pharma/ Biological Products/ Medical Device) NQR: 2022/LS/LSSSDC/05677	Level 7	50	55	Managerial level position mostly employed one per manufacturing unit	700
b.	Associate-Clinical Research Management (Pharma, Biologics and Medical devices) Electives: 1. Site Management 2. Study Monitoring 3. Data Management NQR: 2022/LS/LSSSDC/05678	Level 5	100	166	Clinical Trials market is gradually growing post Covid19. This is a futuristic qualification but will always be a Niche Skill area and employment number shall be smaller.	500
c.	Executive- Telesales (Pharma, Biologics, Medical Device, and other health services) NQR: 2022/LS/LSSSDC/05679	Level 4	100	385	Due to pending decision by Supreme Court on E-Pharmacies in India, the demand of Executive Telesales is growing with rather a slower pace. While in other B2B sales and Lab/ Health Services the employment is expected to grow in next 2-3 years.	1500

8.3. Basis the above reasons and to ensure higher percentage of placement of certified candidates, the awarding body has taken annual skilling targets lesser than 1000 at the time of approval in 17th NSQC, and have ensured that by 30th Sep 2022, they have achieved 50% or more of the targeted training. Hence the awarding body has requested for grant of regular validity to the above mentioned qualifications up to 31.03.2025.

The agenda is placed for information and approval of the Committee.
