14. AGENDA ITEM 14: ARCHIVAL OF NON-ACTIVE AND EXPIRED QUALIFICATION FROM NQR PORTAL

14.1. The National Qualification Register (NQR) is the repository of all NSQF aligned and approved qualifications. The portal has 4782 active qualifications as on 04-03-2024.

14.2. The NSQC in its 26th meeting held on 31.01.2023 had ratified the archival of 874 qualifications in which no trainings have been conducted or validity of the qualification had expired and the original developer of the qualification had not submitted the revised version of the qualification. The NSQC also directed that regular audit to be conducted to find out qualifications with expired validity or qualifications in which no training was imparted shall be considered for archival. This is to ensure that only relevant qualifications are available on the NQR portal.

15. AGENDA ITEM 15: INCLUSION OF 'VALIDITY OF CREDIT' AS AN MANDATORY PARAMETER FOR NSQF ALIGNMENT AND APPROVAL OF QUALIFICATION, IN ACCORDANCE WITH THE PROVISIONS OF NATIONAL CREDIT FRAMEWORK

15.1. The National Credit Framework (NCrF), duly approved by the government has been notified by UGC on 10th April 2023 (https://www.ugc.gov.in/Ncrf.aspx.). The NCrF has been adopted by NCVET on 12th May 2023. The NCrF provides for creditization of all learning including academic, vocational/ skills & experiential learning, and assignment, accumulation, storage, transfer & redemption of credits, subject to assessment; removes distinction between subjects and establishes academic equivalence between vocational & general education while enabling mobility within & between them, and its operationalization through the Academic Bank of Credits (ABC).

15.2. The NCrF allows for redemption of credits earned for a suitable award i.e Certificate, Diploma and Degree. The Certificate, Diploma or Degree earned against a qualification shall have perpetual validity, which means that they would be valid for a lifetime. The credits earned however, shall have a defined validity.

15.3. The para 3.5.5 on '**Credit Expiry and Renewal'** of the NCrF document mentions the following:

> *"Credits earned by students shall be deposited in the respective Bank Account with ABC and shall be valid for a period as defined by the respective regulator or till it is redeemed. The redemption of credits shall be as per the provisions of ABC Guidelines or as stipulated by the regulator concerned/ autonomous institution".*

15.4. Subsequently, a High-Level Committee (HLC) to oversee the operationalization and implementation of NCrF was constituted by the Govt. The HLC constituted three different sub-committees to develop specific SOPs for operationalision of NCrF in School Education, Higher Education and Vocational Education, Training and Skilling (VETS). Accordingly, the Sub-Committee for implementation of NCrF in VETS gave its final recommendations to the HLC which were placed for public consultation from 28th December 2023 to 25th January 2024 and is under finalisation.

15.5. The SOP relating to VETS details out various provisions of Creditisation including the validity of credits with respect to VETS. The relevant extract is reproduced below:

"The validity of the credits earned after undergoing training in a NSQF aligned and approved qualification will depend on the type of VETS qualification. In General, the validity of credits earned through a VETS qualification, unless otherwise specified in the qualification, shall be as below:

i. *General /lifelong learning/cognitive learning:* *Lifetime validity*

ii. *Conceptual learning with detailed skills:* *7 years validity*

iii. *Conceptual learning with skills on Future Technologies:* *3 years Validity*

In case a student/ learner wishes to redeem the credits earned after the validity of the credits for a Skill-based course/ qualification has expired, the student/ learner may go for re-validation of the credits of the course/ qualification through a well-defined assessment mechanism like RPL. The revalidation of the credit earned by a learner/student is primarily applicable for redemption in case of academic education including the school and higher education. Such credits after the validity period would be reflected as 'Require re-validation for redemption' on ABC. The concerned institution, undertaking such assessment for revalidation may also recommend additional bridge module while doing the re-validation process. The responsibility of the re-validation of such courses along with assessment and credits will be that of the concerned regulator and appropriate mechanism for the same may be prescribed/ developed.

In context of employment / job, it shall be the responsibility and discretion of the employer to assess the eligibility and credentials of the candidate for a particular position and the validity of credit even if expired may not be a relevant criterion for an employer".

15.6. Based on the above provisions in the SOP, it is proposed that the parameter 'Validity of the Credit Earned' may be included as a mandatory criterion for NSQF alignment and approval of the qualifications. Suitable modifications would therefore be undertaken in the Qualification file template.

15.7. Additionally, all the Awarding Bodies while calculating credits for the qualifications in the Q-file template must ensure that wherever the notional hours of the qualification is not fixed owing to either the qualification having multiple electives or having OJT as recommended, the credits shall be mentioned in range depending on the minimum and maximum notional hours of the qualification. The criteria for calculation of credit would be as is prescribed in the NCrF.

The agenda is placed for approval of the Committee.
